ACCEL-JS2000 Features

NVIDIA IGX platform for Medical AI imaging application

- NVIDIA IGX Orin Industrial Module with 250 TOPS AI Performance
- Support RTX 6000 Ada GPU card with up to 1700 TOPS AI Performance
- ConnectX-7 High Speed Edge Networking 2 x 100Gbe
- Dedicated MCU to reassure the functional safety
- Built-in BMC controller to provide a standard-based interface to system management and recovery
- System Power design with 700W Medical PSU
- Excellent thermal management to maximize the performance and lower the noise
- 4K SDI capture card integration (Optional)
- Support optional 7" front screen
- Long Life cycle Support
- Medical Certification
