

## Dual Road Tube Installation Kit – Preassembled for Convenience

Take the hassle out of site setup with our **Dual Road Tube Installation Kit**, supplied preassembled and ready to deploy.

Each kit includes everything required to complete a standard dual-tube installation for vehicle counting and traffic survey applications.

---

### Kit Includes

- 2 × 15 m road tubes
- 10 × 70 mm road nails
- 8 × 150 mm shoulder nails
- 6 × road flaps
- 2 × road tube clamps (with nut/bolt)
- 2 × road tube anchors (Chinese fingers)
- 10 × washers
- 2 × vent plugs
- 2 × tube connectors

---

Designed for ease of use in the field, this kit provides all essential components for reliable deployment and secure placement on site. Suitable for a wide range of traffic applications and compatible with **all vehicle counters, tube counters, and road-tube based classifiers.**

Perfect for councils, consultants, contractors, and organisations conducting temporary or recurring traffic studies.
