

Burgwachter 50MM Magno 400E 40 Key Alike lock

The **Magno Padlock** range offers reliable, everyday security with hardened, chrome-plated brass construction and a high-strength hardened steel shackle. Available in **seven body sizes (15–60 mm)**, the range provides options from compact to heavy-duty applications. Models **30 mm and above** feature a **double-bolted locking mechanism** for increased protection.

Designed for long-term outdoor performance, the Magno series includes **rustproof internal components** to ensure smooth cylinder operation and resistance to weather exposure. Multiple keying options are available, including **keyed-alike**, allowing several locks to be operated with a single key.

Key Features

- Hardened, chrome-plated brass body
- Hardened steel shackle with high tear resistance
- **Double bolted** from 30 mm size
- Rustproof internal components
- High number of key differs (enhanced security)
- Available in keyed-alike versions
