

Xtorque X551604 Platinum SDS PLUS 5.5mm x 160mm Platinum 4 Cutter Drill

5.5mm x 160mm

Made In Germany

Designed, engineered, and manufactured in Germany — by professionals, for professionals.

The **Xtorque SDS Plus Platinum 4 Cutter Drill Bit** delivers exceptional speed, durability, and precision. Built with a **German one-piece 4-carbide tip**, this premium drill bit is up to **30% faster** than standard quad-cutters, offering outstanding performance when drilling into reinforced concrete. Its advanced flute geometry ensures superior dust removal, smoother drilling, and reduced vibration.

Key Features

- **German-engineered one-piece carbide tip** for permanent strength and constant precision — even when striking rebar
- **4-flute geometry** ensures fast and efficient dust and debris extraction
- **Core cutters** designed for rapid demolition of concrete
- **Wear markers** indicate whether the bit remains suitable for plug and anchor hole drilling
- **Low-vibration design** for smoother, more comfortable drilling and perfect hole alignment
- **Radial cutting edges** protect the bit from jamming on rebar, extending its operational life
- Built for **long life, high durability, and 30% faster penetration**

Specifications

- **Width:** 5.5 mm
- **Length:** 160 mm (6.3")
