

TT-02 TALLY COUNTER

Watertight Single Road Tube Accumulator

The **Traffic Tally 2** has earned its reputation over decades of reliable performance in the field. Compact, durable, and incredibly easy to use, the TT-2 is the ideal **grand total traffic counter** for both low-speed and high-speed applications.

With a **single road tube input**, **LCD display**, and a **long battery life**, it provides accurate count data without needing a computer or complicated setup — simply deploy, collect, and go.

✓ Key Features

- **IP67 watertight** aluminium casing – built tough for harsh roadside environments
- **Long battery life** — 5+ years on a lithium power source
- **No computer required** — data is displayed directly on the LCD screen
- **Quick deployment** — magnet-activated display for ease of use
- **Compact & lightweight** — easy to transport and install
- User-selectable **High/Low speed operating modes**
- Ideal for repeated deployments with **zero re-configuration** needed

📏 Specifications

Attribute	Details
Size	3" × 3.5" × 5.5" (7.6 × 8.9 × 14 cm)
Weight	1 lb 13 oz (0.8 kg)
Enclosure	IP67 T-6061 aluminium with 3/8" Lexan face
Power	5+ year lithium battery
Display	8-digit LCD
Accuracy	7–100 mph (up to 30 counts/sec)
Low-Speed Option	2–20 mph, user settable
Temperature Range	–40°F to +160°F (–40°C to 72°C)
Air Switch Compatibility	1/4" ID tube (30–100 ft) / 3/16" ID tube (30–70 ft)

+ Operation Notes

- Records **one count per two tube strikes** (divide by 2 for vehicle totals)
- Optional axle counting mode available

📦 What's Included

- TT-2 Traffic Counter
- Protective plastic molded cover
- Magnet keychain (for display activation)

Optional: Lock available (+\$35 + GST)
